Mr. EREN TOURJEE is hereby authorized to transact for us any business connected with the NEWS and JOURNAL OFFICE, of this city.

ON THE OUTSIDE OF THIS ISSUE.—First Page—Miscellaneous.

The season has fairly opened, and Newport really begins to assume the lively appearance which always characterizes it at this period of the year, when, as the chief watering place of America, it is crowded with guests from all quarters of the globe, bringing with them the wealth, fashion and beauty of the continent. Our streets are now filled with the equipages of fashion and wealth, crowding out the more useful and modest vehicles of trade and traffic; yet this is a season of business among our citizens, and always proves to be one of profit, especially to those who cater for the wants of our influx of visitors.

Our fashionable seasons have, for the last few years, been gradually growing longer, and we think they can still be lengthened to advantage, as the latter part of September is now often extremely hot in the cities, and the whole of October is one of the most delightful months on this Island. In our opinion the beauties of this month are never so fully realized as when spent on this truly lovely Isle, amid the pleasures which here surround the favored visitors of Aquidneck.

The fashionable hotels and boarding-houses already begin to fill up, and we are informed that they are as full now as they ever are so early in the season. The arrival of the Germanian and Belle Vue House Band adds still greater attractions to the hotels, and we may soon expect to see them crowded with throngs of guests. We are informed, and believe, that the hotels are all without exception in as good or better condition for the reception of visitors, than ever before.

What can the Providence Tribune mean by saying, "It is almost miraculous to ponder on the discoveries of the present age? The discoveries themselves, great as they are, we consider a long way this side of 'miraculous'; and how it can be miraculous 'to ponder' on them, we confess, puzzles us.

The quarterly meeting of the Rhode Island Missionary Convocation will be held in St. Paul's Church Portsmouth, on Wednesday and Thursday of this week. Hours of service, 8 and 10 1-2 o'clock, A. M. 3 and 7 1-2 o'clock, P. M.

THE U. S. STEAMSHIP NIAGARA.—The Navy Department has received a letter from Captain Hudson, commander of the Niagara, dated June 27, in which he says: "I have the honor to report that a ship load of the Telegraph Cable has just been got alongside this ship, which we shall at once commence coiling into the forehold. We have a promise of a second vessel, now nearly full, on the 31st and shall commence coiling from her into the wardrobe tier aloft. During the time in which we shall be coiling from the vessels into their districts or separate tiers, we shall coil away on this ship one hundred miles in twenty-four hours. As I stated in my letter of the 22d instant, the two vessels above referred to bring off about seven hundred and fifty miles of cable."—N. Y. Mirror.

POTATO FAMINE.—The price of potatoes has risen almost to the famine pitch in this city. Bermudas and American now are retailing in the upper part of the city at from \$3 to \$10 per barrel! Many highly respectable families, with incomes hitherto sufficient for their support, are now compelled to deny themselves, for the present, both meat and potatoes. Certainly, we live in a great country, that cannot raise food enough for its own people. Plenty of land, but nothing to eat; plenty of cotton, and nothing to wear. The greatest question of the day, both in the United States and in England, is this food question.

But for the German gardeners around the city of New York, it is doubtful whether we should have any fresh vegetables at all. Brother Jonathan will take a contract on a railway, or act as clerk in the Street Commissioner's office, if he can get a salary equal to his exalted merit; but he will not dig nor raise potatoes. He is above all such ungentlemanlike proceedings. When, in the name of common sense, will our countrymen again become rational? And when will healthy and necessary labor in the fields be considered as honorable as running round to sell patent rat traps, or chasing up Sells for a place on the night watch? N. Y. Mirror.

THE GRAPE CROP.—The Cincinnati Gazette learns that the rot has injured the grapes in many of the vineyards around Cincinnati. In some vineyards at least one half of the grapes are destroyed. If, however, the weather should be favorable, and the injury extend no further, the crop will still be good. The vineyards this spring have been weighed down with a superabundant crop, so much so that if half of the grapes are thinned away by the rot, a fine crop would still be realized.

A FAST YOUTH.—A western contemporary says he would be willing to put his young friend, R. H. Purdon, editor of the Port Gibson (Miss.) Reveille, against the fastest young American in any other State of the confederacy. He is not yet nineteen years old; has been editing a newspaper for nearly four years; has courted and been accepted by at least half a dozen of the most intelligent and handsomest young ladies in Mississippi—didn't marry either of them; and lately met the editor of the Natchez Free Trader in mortal combat, got wounded in the arm, returned to his post, and went to his work as if nothing had happened.

LOCAL NEWS.

MR. HAMMOND:—

I read this morning with much pleasure your editorial in regard to the communication with the shore at Conrad's Cave, and confidently hope that your remarks will not pass unheeded by those whose duty it is to act for the public safety.

Meanwhile, I suggest to parents and guardians to keep their children and wards from a place where accidents are so liable under existing circumstances to occur.

CENSOR.

Newport, July 13, 1857.

This is but an instance of the universal sentiments existing upon this subject. An almost criminal neglect on the part of some officer, whose business it is to provide for repairs of such essential interest to the city has given ample reason for the most clamorous complaint. We entirely agree with "Censor" that such a matter is one of direct duty and not of convenience, and we hope with him, that improvement in respect of it will be no longer procrastinated.

The Sunday School of the Central Baptist Society held their Anniversary on Sunday evening. Rev. Dr. Jackson read selections from the Scriptures, and the Decalogue, the children chanting the responses.

The sermon was from Proverbs, 4 chap., 7 verse. The Sunday Scholars also sang two hymns, accompanied by the organ, which was tastefully played by Sheriff Lake.

At the close of the services, the "right hand of fellowship" was extended to three young candidates. An attentive congregation was present on the occasion, and the children, who, it may be well to say, are under the musical tuition of Dr. Wood, performed their parts admirably, much to the credit of themselves and their instructor.

The building called All Saints Chapel, in Church street, above High street, has been bought by some of the parishioners of Trinity Church, and presented to their rector, Rev. Mr. Mercer, to be employed as he shall judge expedient. This Chapel was built in the year 1849, after the plans of R. Upjohn, of New York, Architect. It has been much admired for its beautiful proportions, and the combination of simplicity with impressiveness, especially in the interior.

It supplied a want which had been strongly felt, of a place of worship with free sittings. The means for building it were raised by Rev. Mr. Brewer. Twenty-five hundred dollars were given by one lady, the late Miss Phoebe C. Bull. Eighteen hundred more were obtained from a large number of contributors. It has been opened only during the summer, and supplied with services by visiting clergymen.

The proceeds from the sale of the Chapel will be devoted to the finishing of Emmanuel Church, and the payment of its debt.

The Germania Musical Society arrived in Newport on Sunday, and commenced to play yesterday at the Ocean, Atlantic and Fillmore houses. These musicians are too well and widely known to require extended notice from us. Their opening concert will be given shortly. The company is said to be under the same skillful managers who directed its career last season,—with increasing attractions of this character Newport will soon be thronged with visitors.

Our thanks are due to the officers of the steamer Governor, Mr. Charles B. Tennant, agent of the INDEPENDENT LINE, and John D. Northam, Esq., for New York Sunday papers.

For the Daily News.

MR. EDITOR:—I hand you for publication a copy of Alderman Hopkins' Report to the City Council on the subject of GAS.—Alderman Hopkins states that the report is intended to exonerate the Gas Company from the charge of fraud preferred by the Mayor. It commends itself to every intelligent mind as a rare specimen of Anglo-Saxon literature, and for logical deductions puts the debates between Hadibras and his Squire wholly in the shade.

Report.

The Committee to whom was referred the communication of His Honor the Mayor, in relation to Street Lanterns, would respectfully Report: That they have performed the duty assigned them, and having heard all the testimony offered by either party, thus respectfully submit the following as a true and fair statement according to the testimony:

On July 4th, 1855, a contract was made between the Newport Gas Light Co. and the City of Newport, on the following terms and conditions, viz: The Gas burners to be of 4 feet capacity, and said company is to furnish gas at least twenty-three hundred hours, for twelve months from the date hereof, to each post, the City Council to be paid therefor twenty-three dollars for each post, payable in equal monthly payments, and one cent per hour for each hour in addition to the said twenty-three hundred hours they are burned; the city to light, extinguish, and keep lanterns in repair, the account of the city watch to be the evidence of the number of hours burned; the Gas Co. are to have the post lanterns and burners put in complete order at the commencement of the agreement. From the evidence it appears that the contract was renewed July 10th, 1856, about three months after the renewal of the contract, the burners which had been used during the last year and for some time previously were removed and others were placed in the lanterns and the just were packed with wool, for the purpose, as is alleged by the Gas Co., of reducing them to 4 feet capacity. It appears from the evidence of Ex-Mayor Swinburne, and of the Committee on Gas and Lamps, that the change of burners and the packing were both done without their knowledge or consent; from the evidence of the Chairman of that Committee, and of the Captain of the Watch, there were frequent complaints of poor lights, and the Captain of the Watch

also testified that the lights were very irregular. In consequence of those complaints, Mayor Crumston, shortly after he came into office, made a personal examination of some of the lanterns, and finding them packed, directed the Captain of the Watch to examine all the burners and take the packing out, which was done, and fifty-five were reported as packed; THEREFORE the Committee believe this to be an impartial statement of the facts of the case. That the burners now used in the street lanterns consume by burning and wasting even more than 4 feet of Gas, the Committee are fully satisfied, both from the evidence derived from others and from their own observations, and for the same reason are satisfied that it is very uncertain how much Gas was used while they were packed. The Committee regret that when the burners were removed by the Mayor, some of them were not preserved, with the packing in them, so that the actual amount might have been ascertained. As it is, the most important part of the evidence is lost.

As the burners on the lanterns at the time of the first contract, in 1855, and for some time previously, were continued through that year, and after the renewal of the contract in 1856, were still continued for two or three months, the Council had a right to regard those burners as part of the contract, as they were of four feet capacity, and as no objection had been made to them by the Gas Company on renewing the contract in July, 1856. Previous to the change in the burners in October, 1856, no complaints had been made in regard to lights, but directly after the change complaints were numerous. In the opinion of the Committee the Gas Company cannot be justified in changing the burners without consulting the Committee on Gas and Lamps. And they THEREFORE report, that in their opinion it was a misconstruction of the contract, and it was the Mayor's imperative duty to call the attention of the Council to the facts.

We respectfully submit this Report to your honorable body.

SAMUEL T. HOPKINS, Chairman.

ALEX. MCGREGOR,

B. H. STEVENS.

Correspondence of the Daily News.

NEW YORK, July 11, 1857.

MR. EDITOR:—How many animals, of the three varieties most used for food in this country—the ox, sheep and swine—do your readers imagine the people of this city slay and devour weekly, on an average?—The reader who has not particularly observed or reflected upon the subject, would not be likely to guess with much accuracy.—The whole number of these animals weekly slaughtered and eaten here ranges from fifteen to twenty-five thousand, often running as high as twenty thousand per week. The number actually slaughtered is not, of course, precisely the same as that of the aggregate herds which arrive here, week by week, from all points of the compass; yet the average of arrivals and of slaughter will not vary much in the long run, as every hog is destined to the knife; and comparatively few of the other kinds of animals that pass through the great market in 4th street, are so fortunate as to escape the butcher. The total arrivals of sheep, swine, cows, calves and bullocks, last week, were 16,769; week before, 20,135.

The Mayor and his partisans, who experienced so severe a rebuff in the decision of the Court of appeals against them relative to the Police act, are 'catching it' again in the matter of the Street Commissioner's office. Judge Peabody, of the Supreme Court having decided that Mr. Charles Devlin, Mayor Wood's appointee to that office, has no proper claim thereto, but that the situation rightly belongs to Mr. D. D. Conover, who was appointed by Gov. King to fill the office of Street Commissioner, on the death of the late Mr. Taylor. How this question would turn, if carried to the Appeal Court, is by no means certain; it is quite possible Judge Peabody might fail to be sustained in that body—and perhaps rightly, too.—But even in that case, it does not follow that the course of the Mayor and his friends has been either wise or prudent, in the premises.

The bark Panehita, which was seized in this port, some months since, by government officials, on suspicion of being fitted out for the slave trade, but released for lack of sufficient evidence against her, has arrived here from the coast of Africa, in charge of a British crew and officers—having been caught there under circumstances which her captors deem entirely conclusive as to her intended engagement in that infamous business. It remains to be seen whether the bark will be able to escape the meshes of the law this time.

Cock-a-doodle-do!—That immortal Shanghai, James Gordon Bennett, the prince and pattern of all crowing hippos, has put forth a most sonorous utterance through his quack organ, the N. Y. Herald, to the effect that he is now circulating more papers than all the other daily papers in the city of New York combined!!! and not only so, but that "all the cash advertising" of the city is "gradually and rapidly" concentrating itself upon the columns of that same wise, just, patriotic and truthful newspaper, the N. Y. Herald aforesaid. Cock-a-doodle-do!—(How is one to help crowing, I should like to know, in view of such a magnificent piece of intelligence?)

"Gradually and rapidly"—such is the phraseology of the Herald. Well that is sufficiently comprehensive, it must be confessed; and the meaning, I suppose, is that the cash advertising which does not flow into the Herald "rapidly" will be sure to find its way there "gradually"—at all events, the great cormorant is bound to gather it all up; and the advertising columns of the other fifteen N. Y. daily papers, including those rich old mammoth concerns, the Courier &

Enquirer, Journal of Commerce, Commercial Advertiser, etc., will become as lean and meagre as a June shad. "Oh, great N. Y. Herald! what a modest and truthful journal you must be!"

Two more deaths have occurred in consequence of injuries received in the furious riots of the 4th inst., making eleven lives lost in all, and it is quite possible one or two more may be added.

Summer weather of the most decided character, has at last 'come to town.' It is not enough to-day for Infants—either to grow, or to roast, almost. RAMBLER.

Holloway's Ointment and Pills.—Bureaux of Health, hospitals and dispensaries, have never accomplished half the good that has been achieved through the agencies for the sale of these remedies.—Fortunately for the sick, these agencies pervade all countries. Every dwelling, however, should be furnished with the preparations, for they may be suddenly and imperatively required at any hour. If universally and appropriately used in all cases demanding medical treatment, the average duration of human life would be increased, and the amount of human suffering greatly lessened. The effect of the Ointment on eruptions, ulcers, tumors, and all kinds of external diseases and injuries, is little short of supernatural.

My hab: is all falling off! Well, my friend, 'tis your own fault; get a bottle of Alpine Hair Balm and you will never be troubled that way again.

Why is a young man kissing his sweetheart, like another eating soup with a fork? Because it takes him so long to get enough of it.

SPECIAL NOTICES.

A CARD TO THE LADIES.

DR. DEPOSE'S Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting, regulating, and removing all obstructions from whatever cause.
All medical men know, as well as many others, that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive. Price \$3 per box. For sale by HAZARD & CASWELL, 12 Washington Square, and 137 Thames street. They will supply the trade at manufacturer's prices. Ladies, by enclosing \$1 to NURSE & CO., Box 24, Newport Post Office, can have the Pills sent (confidentially) by mail to any part of the city or country. jy23—ly

ALPINE HAIR BALM.

Restoring Gray Hair to its Original Color.

WARRANTED to cure Baldness, Scurf, Dandruff, itching and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the Hair, which passes through the Hair, and gives it a natural color without the use of Hair Dye.
Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling off, composed of Oils, Alcohol and other deteriorating materials, and all in vain. Hair Dyes have been introduced that do not give the Hair a natural color, but besides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy. It is soothing and emollient, allays all irritation of the scalp, thereby stopping that troublesome itching. It cures Dandruff and Scurf, and when the Hair has turned gray, it will bring it back to its original color, be it Black, Brown or Auburn. It makes the Hair soft and glossy—prevents it from falling off, will be seen by using this Balm for only a few days—life will be given to the roots of the Hair, and growth will soon appear.—Growth does not take place at the end of the Hair, as will be seen in persons who have their Hair dyed. If you examine gray hair that has been colored for a week, you will find to the roots of the hair, and back to its original color, be it Black, Brown or Auburn. It makes the Hair soft and glossy—prevents it from falling off, will be seen by using this Balm for only a few days—life will be given to the roots of the Hair, and growth will soon appear.—Growth does not take place at the end of the Hair, as will be seen in persons who have their Hair dyed. Hazard & Caswell
TAKING pleasure in announcing to their many
friends and customers, that they will open
their new Drug Store, No. 132 Thames street,
corner of Church street, on Tuesday, July 1st.
In the building they are enlarging their stock
in most facilities they rely with entire confidence
upon the support of the community who have
never failed to appreciate their endeavors,
and in extend to them a generous and liberal
support.
Commencing business as associates of Dr.
Hazard on the 1st of July, 1856, just seven
years ago, they have from time to time been
obliged to extend to meet the growing wants
of the people, until they are now confident that
their facilities for doing business are second to
no establishment of the kind in New England,
and by paying strict and untiring personal at-
tention to all the departments of their busi-
ness, they hope to make their establishments
worthy the support and patronage of the whole
community. Their
Prescription Department
will be under the immediate care of the most
cautious and experienced men, the purest and
most reliable materials only, will be used in
compounding, and the greatest care exercised to
do full justice to both Physician and Pa-
tient. To which they have a separate de-
partment for the preparation of prescriptions,
supplied with the choicest medicines and
chemicals that can be procured, or manufac-
tured, their
Drug Department
will be always supplied with the best the
market affords, and they will be prepared to sell at
a moderate price, and guarantee the purity
and genuineness of every article. They will
also keep supplied with Chemicals and Dyes
used by Daguerreotypes, Manufacturers, &c.,
&c., and supply them at a mere advance
on the New York market prices.
jyl1

Artists Materials.
They will furnish at the list prices of Wil-
liams & Co., Goupil & Co., of N. York, or
Whipple of Boston, mostly from the color
works of Windsor and Newton of London, and
will always be ready to display and dispose of,
any paintings or sketches left with them for
that purpose. Fine colors, (oil and water),
Brushes, Varnishes, Pencils, Canvases, Cray-
ons, Portable Colors, Colors, Boxes, Cases, Pa-
lettes, &c., always on hand. Their
Soda Water
will be manufactured on the premises with
the utmost particularity. The fountains are of
pure blood tin, the tubes of the same material,
and the pipes of gutta percha, so that it
is "and" be free from noxious qualities. The
syrups are made by them of the best materials.
They are constantly receiving from the springs
fresh COGNAC, V. and Empire Water.
Also, Blue Lick, White Sulphur, Seltzer, and
other mineral waters. They also keep a stock
of Fine Spices, Toilet Articles, Hair,
Tooth, Nail, and Bath Brushes,
Toilets, Soap, Bath Gloves and Sponges, India
Rubber Goods, Perfumery, Cosmetics, Po-
madres, Colognes, and Perfumed Waters, in-
cluding every article necessary for the Dressing
Room, the Toilets or Boudoir.
They will furnish all PATENT MEDICINES,
good, bad, or indifferent, that are in-
tended to the public, and guarantee their
genuineness.
On Sunday, (as heretofore,) their sales will
be confined to necessary medicines, Leeching
promptly attended to.

The Greatest Discovery of the Age.
PROFESSOR WOOD offers for sale
a perfect HAIR RESTORATIVE. It
in a short time restores the hair, which
has become gray prematurely, to its original
color—bringing it out where it is gone, and arrest-
ing it where it is falling off—cleanses the head of dandruff
and itching, and removes all cutaneous
eruptions, and renders the scalp perfectly
healthy, by restoring the secretory organs
their original vigor and strength, and thus
supplying nature and coloring matter to the
roots. It does not dye the hair, but is, in short,
a perfect Hair Invigorator and Tonic.
To the young, who so much admire the beau-
tiful locks and ringlet, he feels that he will
be pardoned if he offers the advice suggested
by long study and extensive observation. It is
to discard all cologne and stimulating oils
for the hair, and keep always upon the toilet
a bottle of the Restorative for occasional use,
and we can safely predict, that the beautiful sil-
ver locks will be again a household word. Let
the dark eye be ever so piercing, and
the teeth be those of pearl—still, if the
natural funds be withheld from the hair, and
a consequence becomes first dead and harsh,
then gray, or falls off nature will be robbed
of more than half its charms; as it is a sove-
reign remedy for those who are gray as well
as those who are bald, all must see the
propriety of making only such application
to the hair and scalp as is calculated to preserve
it in a healthy state.
From the editor of the Real Estate Ad-
vertiser No. 2 School Street.
Boston, March 20, 1855.

Prof. Wood—Dear Sir—Having become
prematurely quite gray, I was induced some
weeks since, to make a trial of your Hair Res-
torative. I have used less than two bottles,
but the gray hairs have disappeared; and al-
though my hair has not fully attained its origi-
nal color, yet the change is gradually going
on, and I am confident that in a short
time my hair will be as dark as formerly. I
have also been much gratified at the healthy
moisture and vigor of the hair, which, before
was harsh and dry, and it has ceased to come
out as formerly.
Respectfully yours,
jyl1 **D. C. M. RUPP.**
Milford, Worcester Co., Mass., Nov. 13th,
1854.

Prof. O. J. Wood—Dear Sir—I take pleasure
in bearing testimony to the
beneficial effect of your wonderful Hair Resto-
rative. As far back as 1856 my hair com-
menced falling off until the top of my scalp be-
came bald and smooth as glass, and it has contin-
ued to fall off for a great many years, notwith-
standing I have used many celebrated prepa-
rations for its restoration. Seeing your ad-
vertisement I was induced to give your article
a trial, and to my utter astonishment I found
after a few applications that my hair became
firmly set and assumed a very glossy and
beautiful appearance, and at the time I had
covered over with a young and vigorous growth
of hair, which is now from one to two inches in
length, and growing very fast.
Yours truly,
jyl1 **HENRY GOODRICH.**
Carlyle, Ill., June 27, 1856.

I have used Prof. O. J. Wood's Hair Res-
torative, and as I thought permanently gray
but for the use of this Restorative, it has re-
sumed its original color, and I have no doubt
permanently so.

COAL.
LYKENS VALLEY COAL—The sub-
scriber was the first to introduce Lykens
Valley Coal into this market, and it has proved
a good family coal. The only objection to it
is the dimmer and the manner in which it has
been shipped for the last two or three years.
I have now to offer the Lykens coal equal
all respects, and superior, as regards both
the manner of shipment and the character.
Certain interested parties have endeavored to
cover the dealers in this and other markets
into the purchase of the L. V. coal of them, by
means of advertisements headed "Caution,"
as though dealer who do not purchase short
mountain (sold for Lykens Valley) of them,
were palming off an inferior article upon the
public. Persons unacquainted with the Lykens
Coal can examine and test it with the
Short Mountain (Lykens Valley) coal, at Wm.
G. Peckham's or on the wharf of the subscrib-
er, Wm. L. SWINBURNE,
Opposite the Old Market.

DAGUERREOTYPES.
RATHBUN'S
Ambrotype Gallery.
AT APOTHECARY'S HALL, WASHINGTON SQ.
(Near the State House).
THE only place in the city where a
good picture can be obtained. The brillian-
cy and strikingly lifelike expression of Rath-
bun's Pictures, are daily recommending them
to all lovers of Perfect Likenesses.
The peculiar nature of Rathbun's chemicals
and superior instruments (for which he has
spared no expense in selecting) are such as to
render his pictures almost nature itself, and
they are entirely devoid of that sickly, death-
like appearance which is generally attached to
Ambrotypes executed by those who do not un-
derstand or have no taste for the art. To all
those who may want a good picture, whether
Ambrotype or Melanotype, I would extend to
them an invitation to give him a trial, and if
it is not satisfactory, no charge will be made.

Dear Sir—I have made a chemical analysis
of the sample of "Old Bourbon Whiskey" you
brought to me, made by John H. Cutler, of
Louisville, Ky., and find that it is free from all
poisonous matters, and has 49 per cent of abso-
lute Alcohol in it—and about 4 ounces of Sa-
charine matter to the gallon. It is a pure and
unadulterated Liquor, and is suitable for me-
dical use. Respectfully, your obedient servant,

SPANISH GOLDEN MIXTURE.
FOR FEMALES.
THIS elegant vegetable compound has long
been used by the Spanish ladies, for regu-
lating the derangements of the female system,
and for improving the general health and
beautifying the complexion. It is a warm-
ing, stimulating and tonic cordial; enrich-
ing and purifying the blood, quickening the
circulation, imparting color to the lips and
cheeks, brilliancy to the eyes, and a clearness
and freshness to the complexion not attain-
able by any other means.
As a Female Medicine it has no equal.
It will remove female obstructions when all
other remedies have failed, and a few doses
taken for one week before the monthly period
will prevent all obstructions from any cause
whatever. This may seem incredible, but try it.
If it fail in any case the price will be re-
funded. Sent in any part of the country.
Price 50 cts. per bottle.
